Per minute order 3.4 of 12/18/07**

Policy:

2. Where available and appropriate, Special Districts, County Service Areas, Chambers of Commerce or other appropriate boards or committees are encouraged to develop local parking plans for trucks and seek community input and compliance with such plan.
3. Where truck parking appears to create a health and safety hazard, such information should be made available to the Advisory Traffic Committee for possible resolution and recommendations regarding the problem.
